MESSAGE FROM THE HAWAII STATE FIRE COUNCIL (SFC)

Aloha! The SFC is pleased to announce the 29th edition of the Fire Fighter's Safety Guide (FFSG).

This year's FFSG promotes the 2014 Fire Prevention Week theme, "Working Smoke Alarms Save Lives. Test Yours Every Month!" According to the National Fire Protection Association (NFPA), 60% of reported home fire deaths from 2007 to 2011 resulted in homes with no smoke alarms or working smoke alarms. Working smoke alarms decrease the risk of dying in half. More than one-third (37%) of all home fire deaths resulted in homes with no smoke alarms, while almost one-quarter (23%) resulted in homes in which smoke alarms were inoperable.

The FFSG is distributed to elementary school students statewide through a collaboration of Hawaii's four county fire departments. This effort is unique to Hawaii and contributes toward our state having among the lowest rates of fire deaths and injuries in the nation.

The FFSG was designed with the whole family in mind, and we encourage you to help your child complete the activities and lessons as a family. This will help your family prepare for emergencies through prevention and planning. Please have your child return the completed booklet to his/her teacher to receive valuable coupons.

Mahalo for your participation!

Safety tips for your Home and Family

SMOKE ALARMS

- Install smoke alarms inside and outside each bedroom and on every level of the home.
- Test smoke alarms at least once a month. Press the test button to ensure the alarm is working.
- Use interconnected smoke alarms. When one smoke alarm sounds, they will all sound.
- Replace smoke alarms when they are **ten years old**.

ELECTRICAL SAFETY

- Have all electrical work done by a qualified electrician.
- Plug only one heat-producing appliance, such as a coffee maker, toaster, etc., into an outlet at a time.
- Extension cords are only intended for temporary use. Add more outlets to avoid using extension cords as permanent wiring.

KITCHEN SAFETY

- Cooking fires are the number one cause of home fires and injuries.
- Have a "kid-free zone" of **at least three feet** around the stove.
- Stay in the kitchen while you are cooking. If you leave the kitchen, turn off the stove.
- Keep items, such as oven mitts, wooden utensils, towels, etc., away from the stovetop, as they can catch on fire.
- Keep a lid nearby to smother small grease fires. Smother the fire by sliding the lid over the pan.
- For an oven fire, turn off the stove and keep the door closed.

HOME FIRE SPRINKLERS

- Home fire sprinklers respond quickly and effectively to fire, often extinguishing the fire before the fire department arrives. Only the sprinkler closest to the fire will activate, spraying water on the fire.
- If a fire occurs, the risk of dying decreases by about 80% when the home has a fire sprinkler system.
- When building a new home or remodeling, consider installing a home fire sprinkler system.

WORKING SMOKE ALARMS

When there is a fire, smoke spreads fast. Working smoke alarms give you an early warning so you can escape quickly. If you hear a smoke alarm, get out and stay out using your home escape plan.

The smoke alarm has sounded.
Find your way out of the maze!

WHAT'S THAT SOUND?

If you hear a **single beep or chirping sound** coming from a smoke alarm, tell your parents. That sound means that the battery must be changed.

SAVE LIVES

STAY LOW & GO

If you see or smell smoke or hear a smoke alarm, **STAY LOW AND GO!!** When you stay low to the ground and crawl, you can see AND breathe better.

SEARCH THE SMOKE

How many smoke clouds do you count above?
Find the smoke cloud that doesn't have a match and draw its twin below.

Have your parents test your smoke alarm and listen to the sound it makes. It should be loud enough to hear, even from another room. Remember that sound because it means there is **smoke and maybe fire!**

make a **HOME ESCAPE PLAN**

Use the space below to draw a map of your home showing all doors and windows. Use arrows to show your escape routes. Show at least two ways out of every room, if possible.

Choose an **outside meeting place** (like a tree, light pole, or mailbox) a safe distance from your home where everyone can meet.

Practice your home fire drill during the day AND night with everyone in your home. Make an escape plan for a friend or family member (like a grandparent) who doesn't have an escape plan for their home.

FIRE FIGHTERS

ARE YOUR

FRIENDS

Pictured below are items that fire fighters use to fight fires and protect themselves. Unscramble the letters to identify each piece of equipment. Use the **red** letters to reveal the secret word below.

X**E**A

O**T**OSB

HACN**W**ASI

SFAL**T**HLHGI

V**G**ELSO

M**T**HLEE

S**O**EH

S**M**K**A**

D**R**IAO

Fire fighters may seem a little bit scary when they have their equipment on, but they are there to help you. If you see a fire fighter in your house, don't be afraid. Go to them and they will keep you safe.

The secret word is something that fire fighters use to put out fires.

— — — —

Fire fighters **don't only fight fires**. Can you think of other things that fire fighters do? Identify other emergency personnel that work with fire fighters to help keep our community safe.

DON'T STALL, CALL 911

When there is an emergency, **DON'T STALL, CALL 911** and give the operator your information. If there is a fire in your house, **DO NOT** call from your home. Get out and stay out! Go to your family's safe meeting place.

911 SUDOKU

Every row, column, and colored box must contain the numbers **9-1-1**.

Are you a Sudoku Master? Try this next puzzle. Every row, column, and colored box must contain the numbers **1 through 6**.

		4	3		
5					1
4	3			6	2
2	1			4	3
6					4
		2	6		

Write down your emergency information and put it somewhere easy to find like on the refrigerator. Practice remembering important information like your **full name** and **home address**.

If your **CLOTHES** catch on fire, **STOP** where you are. **DROP** to the **GROUND** and **COVER** your **EYES** and **MOUTH** with your **HANDS**. **ROLL** over and over and back and forth until the **FLAMES** are out.

Q	F	R	C	O	V	E	R	J	H
G	G	U	Z	P	F	B	X	V	K
X	J	U	C	M	S	S	T	Q	G

Find the **WHITE** highlighted words above in the word search. Be sure to check backwards and diagonally!

WORD JUMBLE

Unscramble the letters to find items you should never play with because they can hurt you and cause fires. When you are done, arrange the circled letters to find the **secret word** below.

SECRET WORD

F O O O O O

W	F	S	R	K	I	E	O	R
F								
T	L	G	R	I	E	H		
D	E	C	N	A	L			
T	H	S	M	E	A	C		
E	V	N	O					
V	S	O	T	E				

Fire needs three things to burn: **Fuel**, **Heat**, and **Oxygen**. When you stop, drop, and roll to smother a fire, which one of these things do you take away?

Draw

Kawaii Style

This year's safety guide design was inspired by the style of **kawaii**, which means "cute" in Japanese. Follow the steps below to draw a *kawaii*-style dog. When you are done, draw other things in the style of *kawaii*!
