

# Ready, Set, Go!

The “Ready, Set, Go!”

Hawaii Action Guide is designed to inform and empower our communities to prevent, prepare, and plan for a wildland fire incident.

Contained within the guide are useful checklists to eliminate fuels and create a defensible space around your home.

Create a family disaster plan-- including important contact and medical information, and have your emergency supply kit assembled and ready for evacuation.

Together, let's be fire wise! Mahalo!
